

In conjunction with the Holistic Healing Centre, New York

# Past Life Certificate in Hypnoenergetics

The Academy of Transformational Psychotherapy ([www.the-academy.net.au](http://www.the-academy.net.au)) is holding our 8th Australian Training in partnership with The Holistic Healing Center, New York. This four day training covers all aspects of the use of Hypnotherapy in an energetic context to access womb memory and specifically, past lives. This course offers training in a myriad of healing and integrating techniques that facilitate profound release of past life patterns and insightful exploration of the soul lineage.

The course is structured to benefit both new and experienced hypnotherapists, though we require Diploma level training in Clinical Hypnotherapy as a prerequisite. Each participant receives a comprehensive manual and following the submission of five case studies, can attain certification in Past Life Therapy from the Academy of Transformational Psychotherapy and Holistic Healing Center in New York, USA. Students will undertake their own experiences into the womb and also past lives during this training under the guidance of our instructors. We offer a supportive learning environment that includes one student coach to four students, and the opportunity to learn collectively from all therapists present. (This course is recommended as preparatory training for The Newton Institute's Life Between Lives Hypnotherapy Training.)
